United Arab Emirates

UAE-FS-ISAC Prerequisite Document

UAE-FS-ISAC COMMUNITY TYPE

UAE-FS-ISAC is a not-for-profit centre, providing a central resource for gathering and sharing information on cyber and non-cyber incidents between financial and government entities.

Members, through various means, contribute information; UAE-FS-ISAC also maintains relationships with other sources, who provide reports that can be disseminated to the membership, including from government cybersecurity agencies, trade associations, CERTs or other entities. When possible, attribution to these external sources will be provided in the alert.

UAE-FS-ISAC PREREQUISITE

To become a participant in UAE-FS-USAC, kindly complete the table below:
