2. Balance of Payments

Balance of Payments is a statistical statement designed to provide a systematic record of country's economic transactions between residents of UAE with the rest of the world. The statistical statement reports, with the appropriate breakdown, international transactions during the period under review. To assist CBUAE in the compilation of the Balance of Payment (BOP), information on the transactions of all types of inward as well as outward flows of funds between residents and nonresidents routed through banks are to be reported.

The objective of the balance of payments is to show the main items affecting monetary conditions and exchange markets. With the terms international transaction it is meant any transaction that creates or redeems, in full or in part, claims or debts, or any transaction that implies the transfer of a right over an object between residents and nonresidents.

For compilation of BOP statement, the purpose of transaction is a key attribute, banks and exchange houses may take necessary efforts to request information from their customers whether it is individual or company regarding the exact nature of the foreign exchange transactions. Accordingly report the same in BOP.

In general transactions,

Within the scope are:

- transactions between resident and nonresident
- cross border transactions
- domestic transactions between a resident and a nonresident

Out of scope are:

- transactions between resident and resident
