

مصرف الإمارات العربية المتحدة المركزي
CENTRAL BANK OF THE U.A.E.

Abu Dhabi, UAE - December 4, 2019:

On December 4th, 2019, an article was posted on a potentially fraudulent website claiming that the Governor of the Central Bank of the UAE, endorses particularly a cryptocurrency trading platform. The article contains false information. CBUAE's position on cryptocurrency is well-known – the Central Bank does not approve any private cryptocurrencies or schemes and has not issued any licenses in the UAE. CBUAE believes that private cryptocurrencies pose potential risks related to price volatility, money laundering and terrorist financing.
